

From Biological Structures to Neural Circuits

02.03.2017

How Cells Feel Tissue Stiffness – Calibrated Tension Sensors to Quantify Piconewton Forces in Cells

Carsten Grashoff (MPI of Biochemistry)

09.03.2017

From Circuits to Behavior in the Insular Cortex

Nadine Gogolla (MPI of Neurobiology)

16.03.2017

Doing structural biology in situ – Molecular views into cells by cryo-electron tomography

Jürgen Plitzko (Dept. W. Baumeister, MPI of Biochemistry)

23.03.2017

Computational (Prote)omics

Jürgen Cox (Ludwig-Maximilians-Universität München)

30.03.2017

Cellular Machineries for the Folding, Assembly and Metabolic Maintenance of RuBisCO

Manajit Hayer-Hartl (MPI of Biochemistry)

06.04.2017

miRNAs Function Cooperatively in Apoptosis Regulation during *C. elegans* Development

Barbara Conradt (Ludwig-Maximilians-Universität München)

Thursdays
17:00

Main Lecture Hall, T-building, Max Planck Institute of Biochemistry
